

**DRAGON METAL**  
MANUFACTURING

**OFFSHORE MANUFACTURING SPECIALISTS**

**Metal Manufacturing   Fabrication   Assembly & Sourcing**

Since 1992 Dragon Metal Manufacturing has been developing long lasting relationships of trust with its customers.

#### Increase Capacity

We can support your company growth during production ramp-up and/or help manage projects outside your core competencies.

#### Reduce Costs

Our clients make an average saving of up to 40% on their manufacturing costs, in addition to what they save in labour and project management.

#### No Risk

Dragon Metal's 100% quality guarantee provides comfort in knowing your product will be up to your high standards.

#### Frictionless Management

Work on projects that add value to your business while your dedicated success manager takes care of

## ADDING VALUE

#### Quality Guarantee

We offer 100% guarantee for all products supplied. This is possible thanks to our multiple levels of quality assurance procedures.

#### Dedicated Customer Success Manager

One of our local customer success managers will work with you to ensure your experience is frictionless, from quoting up to product reception.

#### Confidentiality Guarantee

Confidentiality agreements are in place to ensure your IP is protected and your data is managed according to industry standards.

# OFFERING RISK-FREE PRODUCTION SOLUTIONS

- Fabrication - Assembly - Sourcing - Other processes - Surface finishing

## FABRICATION

- From small components to heavy vehicle bodies.
- Capability of cutting up to a thickness of 400 mm.
- Working to tight tolerances.

**Dragon Metal works with its customers to ensure that all standards are met.**

All aluminium and steel grades get traced from the source and are tested upon arrival to ensure that the material composition is within the original material specification.

## ASSEMBLY AND SOURCING

Having a network of factories all with different specialties, allows us to be your one-stop-shop for all projects.

We can deliver partially or even fully assembled products.

With over 20 years of experience sourcing products from China, we can find almost anything.

# 100% GUARANTEE

confidentiality, quality and service

## SURFACE FINISHING

Wide range of surface treatments and finishes:

- Hardening
- Plating

- Hot dip Galvanizing
- Blasting

- Priming
- Painting

- Powder Coating
- Etching

Our packaging designers study customised packing solutions for every container to ensure any surface treatment is protected during shipping.

## OTHER PROCESSES

With our secondary factories we are able to provide a wide array of additional services:

- Machining
- Casting

- Printing
- Injection moulding

- Blow moulding
- Rotomoulding and much more

If you have any special requirement, speak to your Dragon Metal representative. Our team is always available to investigate alternative processes and solutions to fit your needs.

# QUALITY

## 100% Quality Guarantee

Dragon Metal assures the best manufacturing practices and product quality..

Our local team of engineers follows all projects, every step of the way, offering an additional level of Quality Assurance.

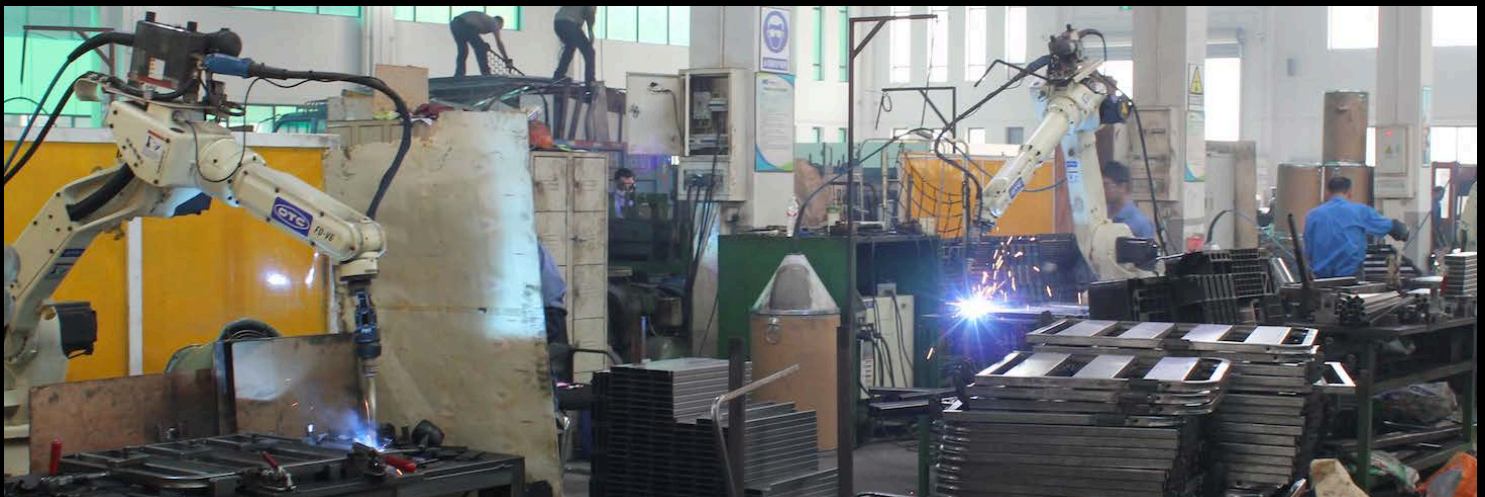

- All the factories we work with are ISO:9001 certified.
- They use modern, up to date equipment, technology and techniques.
- We only work with companies who can test production at every level and whose work conforms to either Australian, American or ISO standards.

## WE PERFORM

- Process FMEA (failure mode and effects analysis)
- Control Plan
- ISIR (Initial Sample Inspection Report)
- Use Welding Jigs
- Inspect all incoming materials
- Only use raw materials where certificates can be produced
